Non-Filter Reloads

There are no better liquid handling pipette tips that offer premium
low-retention properties and excellent fit on the widest range of
variable volume pipettes than Stellar Scientific Teepa Tips.

Teepa Tips have been proven to deliver precise results with
Eppendorf®, Rainin® (not LTS), Gilson®, Labnet Biopette®, Biohit®
and many more of the most popular pipette brands; including
multichannel pipettes.

Made in the USA from virgin polypropylene and featuring a propriety
inert coating for superior pipetting efficiency.

Sturdy hinged racks will not tip over and close with a tight seal to
protect the sterility of our Teepa Tips.

Teepa Tips are independently certified to be RNase/DNase free/PCR
clean, and Sterile when indicated as such.

Available Through
BIORESKO
No special code needed!
