

Western Blotting & Stain-Free™ Technology Demo Day

Bio-Rad at the University of Maryland

Date:
Wednesday, June 3rd

Time:
10:00 AM -12:00 PM

Location:
MSTF outside BIORESCO

Join Us for Our Western Blotting & Stain-Free Technology Demo Day

You're invited to join us for our demo day, where we will talk about elevating western blotting workflow with Bio-Rad's ChemiDoc™ Go Imaging System and Stain-Free technology.

Western blotting is widely used for protein analysis, but achieving reproducible results can be difficult. Top journals now recommend total protein normalization for precise quantification. Learn from Aliana and Cate about how the stain-free workflow improves efficiency, accuracy, and productivity in western blotting and total protein normalization.

Stop by to enjoy coffee and snacks, ask questions, and bring your blot to visualize by using the ChemiDoc Go Imaging System.

We cannot wait to see you!

Meet your Bio-Rad Team:

Aliana López de Victoria
Instrument Specialist
